

A revolution in unconventional resources, energy security issues and heightened environmental awareness have combined to generate increasing focus on natural gas developments in Europe.

Natural Gas Europe is at the forefront of this movement, providing leadership in the coverage of and service to the European natural gas market.

naturalgaseurope.com was created to serve as a broad and complete source of natural gas and energy-related news, research and insights for gas professionals and interested parties. We are the leading source of subscription-free, quality information and analysis related to natural gas in Europe.
